

# Using the Review Status Feature in Blackboard 9

1. Go to your Blackboard course and click on **Course Material**.

2. Navigate to the Assignments folder

3. If your professor has required you to mark the assignment reviewed simply click on the **Mark Reviewed** link

The screenshot shows the Berkeley College Blackboard interface. At the top, there is a navigation bar with the Berkeley College logo and links for Home, Courses, Content Collection, Library, E-Mail, Online Card Office, and Community. Below this, the course path is displayed as 'Bb9 Documentation Bus100 > Course Material > Week 1 > Assignments'. A left-hand navigation menu is visible, listing various course sections like Announcements, Faculty Information, Course Information, Course Material, Discussions, My Course Page, Course Tools, and Berkeley Tutorials. The main content area is titled 'Assignments' and features a document icon. Below the icon, the assignment title 'Week 1 Essay Assignment' is shown, followed by the description 'Write a 2 Page Essay on developing a SWOT analysis'. A red oval highlights a button labeled 'Mark Reviewed' next to the assignment description.

4. The assignment is now marked **Reviewed**

This screenshot shows the same Berkeley College Blackboard interface as the previous one, but the 'Mark Reviewed' button has been replaced by a red oval containing a checkmark and the word 'Reviewed'. The rest of the interface, including the navigation bar, course path, and left-hand menu, remains identical.
